

*is proud to present:*

**The Caretaker and User's Guide to the ADHD Brain:  
Understanding Brain Functioning, Common Coexisting Disorders and  
Appropriate Treatments for ADHD.**

(This presentation will be in English and Questions fielded in English and French)

This presentation will interest parents, educators, doctors, psychologists, social workers, counselors, child and youth workers and adolescents and adults with ADHD.

Dr. Rostain will explain how and why the ADHD brain works differently and how this can impact learning, functioning, and behaviour. In this context, he will help us understand what treatments are available, through medication as well as therapy, and why they work for this disorder. Dr. Rostain will also briefly look at several disorders that frequently coexist with ADHD, such as learning disabilities, Asperger's Disorder and Tourette Syndrome.

**Featuring:  
Tony Rostain, MD, MA**

Anthony L. Rostain is a Professor of Psychiatry and Pediatrics at the University of Pennsylvania School of Medicine and Director of Education for the Department of Psychiatry. Dr. Rostain is triple boarded in pediatrics, adult psychiatry, and child and adolescent psychiatry. Dr. Rostain's clinical focus is in "developmental neuropsychiatry" which includes patients with Attention-Deficit / Hyperactivity Disorder, Asperger's Syndrome and High Functioning Autism, Tourette Syndrome, Learning Disabilities and related social learning disorders. He treats patients of all ages at The Children's Hospital of Philadelphia and the University of Pennsylvania Health System Department of Psychiatry. He is also the Director of the Adult Development Disorders Unit, which includes the Adult ADHD Treatment and Research Program and the Adult Social Learning Disorders Program. Dr. Rostain is a co-author of a book entitled: Cognitive Behaviour Therapy for Adult ADHD, which provides an overview of symptoms, assessment and diagnosis issues for Adult ADHD with a particular focus on comorbidity and medication issues.
